

FEATURE SONGS BY ARTISTS

The Heart of Gold Band covers many classic rock songs that require the musicianship only attainable by the collective talent of a band as fortunate as The Heart Of Gold Band. Listed here are the most “special” of our concert productions that feature everything from searing three-part vocal harmonies, to intricate rhythm section work, thunderously deep or trippy dance grooves, and even the crowd pleasing ‘guitar voice box’, where Joe Bilotti makes his guitar speak (a la Peter Frampton). And The Heart Of Gold Band loves to jam, demonstrating the virtuosity of all its members and exciting its audience with fresh and adventurous performances!
